An innovator to score global awards for product and project teams. Managed development and deployment for products on all major platforms to get and give maximum innovation cut to companies in their competitive market environment. Expertise in improving client loyalty and long-lasting relation. Vast in-hand technologies experience from application top minimum viable product to workflow development to cloud deployments to data science to database to back-end logic to UI to graphic design to product promotion for all major platforms and media (mobile / web / desktop / print) to people management

Projects

In last 15+ years of IT experience

PGI Globalmeet: Chat

Twilio: voice/message api

Cisco: Work-board and Resource management

Kaiser Permanente: Pharma Ecommerce

Telstra: Telecom

Telepo: Telecom

Vidyo: conference platform

Tokbox (Vonage) : Multiplatform SDK

EON: Energy

Mitel: Cloud SDK, Telecom NextGen vs Cisco Webex

Rasmentorshipforum: Restuarants

Hamraahfoundation

Bluebirdwaterpurifiers

Expedia: Travel

Heritage Publications

Citylook

BalajeeCreation

Chakmak Utensils

FootwearDuniya

KitchenIndia

Brennstoffmarcom

Elephantstrainers: Industry

FlavoradelIndia

VTrail Stabilizer

AshishGarg: CA

GreenInfra

Asian Paints

Go2root

Jaipur Metro

Singapore Mice Forum

B&Q UK - Dynamic Incident Reporting

Achievements

Tech Stack: Full Stack Development, Python, Express JS, Electron JS, Cordova, Flutter, Next js, Typescript, Github Co-pilot, Node.js, Azure Data Factory, Azure Databricks, Hadoop storage BIG Data storage, AWS Cloudformation, Multi database: MongoDB, Cosmos/Dynamo DB, Postgres, Redis and Oracle, Multi Cloud: Redhat Openshift. Front-end React JS, Angular 8

Kaiser Permanente - Innovative management process improvements

- Ideation and Implementation of 24*7 circular development life cycle b/w PST and IST timezone teams
- Ideation and implementation of process to have live sync between QA and Dev team while major deployment to prioritise bugs properly and deliver them on fast track efficiently
- Improvement of SQL query performance using Oracle Optimisers and Pool Connection in business logic code.

EON - Implementation for GEN AI chatbox development python

Cisco - Idea and implementation of two value creation ideas:

- Docker deployment image hardening to strengthen security
- Auto API failure detection and troubleshoot system

Mitel Cloudlink SDK - 2nd prize winner for product track innovation on Mitel 12th Innovation Day event 2022-23, 70+ demos been presented from 6 R&D labs across the globe

Idea and implementation of two value creation ideas in period of 1 year:

- Parallel execution of application using multiple-threading CPU cores of machine
- Serial execution improvement for reducing initial time consumed to complete startup activities for micro-services

Mitel NextGen - Idea and implementation of two value creation ideas:

- Global translation of chat messages among users from different region

- On need themes based on request from client also including dark theme

Mitel AWW and MiShare hybrid platform client (Video/Audio sharing buffer protocol API)

Idea and implementation of three value creation ideas in 9 months period:

- File management improvement for logs generated while session
- File size improvement for faster application distribution to clients
- Upgradation of node build library webpack for faster and more secure deliveries

2009-2010 Top Ten participant regional certificate for National Geographic Shaping the future innovation show contest IIT Campus, Hauz Khas, New Delhi

Software Proficiency

Application	Data Engineering, Data warehouse, Real-time batch and stream data analytics and transformation, Pipelines task orchestration, Web / Mobile / Desktop / Browser app development and deployment
Technology	Python, Databases, Semi-structured Data, Node.js
Frameworks	Azure Databricks Airflow, Python, Pandas, Numpy, Pyspark, Node.js, Flask Py, Express JS, Next JS, Electron JS
Database	OracleDb, PostgresDb, MongoDB, Redis, Dynamo DB, Cosmos Db, Hadoop BigData, MySQL
DevOps	YAML, Docker, Kubernetes, helm, Kafka, Push Notification, YAML, Kinesis, Splunk, SonarQube, Data Lake, Dynatrace, Kibana, Git, Hadoop
Azure	Resource Manager, Devops – Pipeline, Repos, Data Factory, Databricks, Data Lake, Storage
AWS	SNS, SQS, EKS, EBS, EFS, Cloud Formation, Step Functions, Athena, Glue, Pub/Sub, Lambda, EMR, CloudWatch
Native device services	Location, Push Notification, User status, Android, iOS, Windows, Mac Applications development and deployment.
Small duration previous exposure to	Redhat Openshift - Multi Cloud Management
	PHP: Magento, Joomla, Wordpress, Underscore.js, CodeIgniter, Zend Framework
Front-end Frameworks	Angular, React JS, JQuery Mobile, Phonegap

Experience Details as per Technologies

- Azure: 3+ years
- AWS: 5 years
- Python: 5+years
- Databases Oracle/Postgres/Mysql/Mongo/Redis: 15+ years
- Node.js: 8 years
- Hybrid Mobile Application for Android/iOS/Mac/Windows: 6 years
- PHP: 2+ years

Past Experience Details

Sept. 2024 to August 2025	HCL – Kaiser Permanente: Pharma Ecom.	California, USA
Data Engineer Full Stack Python / Node.js for position as Senior Technical Manager for multiple data enrichment process used by various front-end applications on multi-platforms Projects: Work on 2 projects Provider management and data transformation and enrichment Azure Databrick – Airflow process Focus on Program Delivery, Capability Management Python Airflow scheduling pipeline data jobs via Azure Databricks with pre-build activities on Azure DataFactory. Semi structured data types json/csv via Hadoop and blob storage transformed with medical business rules from OracleDb and PostgresDB. Output serves for long-term business reporting and to increase performance of Flask Py web service for ecommerce platform Responsibilities: Kaiser Permanente • To develop and maintain data enrichment workflows via Airflow scheduler jobs for activities and build pipelines from Datafactory and Databricks		

Involved in maintaining data flow through data injection using various data connectors for Postgres DB and Redis databases and passing enriched data for warehousing and Flask Python ecommerce application web services Techs: Azure Data Lake, Azure Data Factory, Azure Databrick, Python Airflow, Pandas, PySpark, Oracle, SQL, ReactJS, Node.js, Redis, Hadoop Semi-structured, Azure pipelines, YAML, NextJS		
April 2024 to September 2024	HCL - EON Home	Germany
Data Engineer Full Stack Python / Node.js Projects: Python AWS Elastic search based data analytics services and data sanitization for Gen AI client. AWS cloudformation and step functions orchestration of jobs. Postgres and semi-structured pdf data input cleansing for GenAi training and feeding with new data. All data and UI handled by Flask Py framework Responsibilities: EON - To sanitize data and store to Elastic DB realtime from document sources at confluence for GEN AI - Involved in maintaining data flow through Oracle, MongoDB and Redis databases Techs: Elastic DB, Python, Chat-GPT API, Redis, SQL, React JS		
Aug 2023 to Mar 2024	HCL - Telstra	Australia
Data Engineer Full Stack Python / Node.js Projects: Monthly Billing Manager for Corporate Packages Server-less architecture to speed up billing workflows AWS. Python ETL. Techs: Python AWS based data analytics services and data sanitization for Flask Py web services for billing. AWS Athena, Glue, S3, SQS, SNS, Dynamo DB, Cloud Formation, Step Functions, Kubernetes Yaml. AWS server-less suite with Glue, Python, Pandas, Flask, MongoDB, Redis Responsibilities : Telstra - To sanitize data from semi-structured and structured data sources like data lake of csv/xls/json file in zip packages, Cleaning, analysis and transform and store to Oracle for later analytics, interim db used Dynamo DB and Redis - Involved in maintaining data flow through Oracle, MongoDB and Redis databases for Flask py web services.		
Nov 2022 to Aug 2023	HCL - Cisco	USA, Global
Data Engineer Full Stack Python / Node.js for position as technical manager for development with continue follow-up with client architecture Projects: Work on 3 projects Multi-cloud deployment management for Resource Management and Release Management Softwares with Devops. Engineering Workboard (Product scrubber and defect priority management) Techs: .Python Flask API on AWS/Redhat Openshift, Docker, Kubernetes, Oracle DB, MongoDB, MySQL, Redis, DynamoDb, API Performance Improvements. React for frontend. Python Flask web services and Azure batch pipeline data engineering services to transform data from csv/bigdata/excel files to Oracle DB using MongoDB, Redis for interim cache stages. Kafka pub/sub service used for synchronization between various server side applications. Responsibilities - To Design and develop the workflow services and support performs via pre prepared data via transformation pipelines. - Involved in development of Flask REST and socket Web Services on day to day activities. - Involved in maintaining data flow through Redhat Openshift Azure stack Oracle, MongoDB and Redis databases.		
Oct 2021 to Oct 2022	HCL - Mitel Cloudlink SDK	Sweden
Full Stack Node.js for position as Senior Technical Lead and achieved 2nd award for 12th Mitel Innovation Day 2022-2023 Projects: Devops API management of Cloudlink SDK providers Techs: Cloud api Performance management Responsibilities - To enhance the durability of API created in SDK - To support the system team in deployment activities.		
April 2021 to Sept 2021	HCL - PGI Globalmeet SDK	Atlanta, USA
Full Stack Node.js Projects: Globalmeet Unified Communication Application for End Users Full stack Devops API management and application development, React-Native Techs: Cloud Deployment management for Node.js nodes and React Applications		
Jan 2020 to Mar 2021	HCL - Mitel NextGen	Sweden
Full Stack Node.js Projects: NextGen Unified Communication Application for business users Senior Technical Lead to lead team development for Unified communication application on multiple platform Techs: AWS Cloud integration for Node deployment, Multiple platforms Android, iOS, Mac, Windows. Device database resource data management. Responsibilities Involved in improving quality for sdk by adding new features, enhancement. Testing functionality using Mocha.js, unit testing,		

etc.		
Involved in manual testing of developed features for quality assurance.		
April 2018 to Dec 2019	HCL - Mitel AWW & Mishare	Sweden
Full Stack Node.js Projects: AWW and MiShare application as multi platform hybrid application development using WebRTC protocol. Separate Electron framework distribution Mac & Window. Separate webpack node.js build for browser extension development Techs: Hybrid application development for Mac and Windows only with Node.js and C# backend with SQL database Achievements: Idea and implementation of two value creation ideas in 9 months period: - File management improvement for logs generated while session - File size improvement for faster application distribution to clients - Upgradation of node build library webpack for faster and more secure deliveries		
Aug 2016 to Mar 2018	HCL - Mitel Premium Attendance	Sweden
Full Stack Node.js Projects: Premium Attendant from Telpo to Mitel as standards back-end dashboard for call center applications Techs: Full-stack Webpack, Node.js, Angular 4, Typescript. Lint code, E2E with Oracle Database		
Mar 2016 to July 2016	Tokbox (Vonage) - HCL Technologies	Canada moved headquarter to California
Full Stack Node.js Projects: Tokbox SDK development and support Technical Lead Full-stack Multi programming language sdk for video conference applications Techs: Node.js with AWS Storage and tables		
April 2015 to Feb 2016	Refine Interactive	Okhala, New Delhi
Full Stack Node.js / PHP Projects: RasMentorShip Forum, Expedia Travel Shopping domain PHP backend application for multi-platform hybrid application IONIC-Angular. Node.js small micro services Techs: PHP, Angular, IONIC, Node.js micro services, MySQL, SQL, Cordova, iOS, Android, Java		
Aug 2013 to April 2015	Brennstoff Marcom Pvt. Ltd	Peeragarhi, New Delhi
Full Stack Node.js / PHP Projects: BlueBird Water, Chakmak Utensils, Footwear Duniya, KitchenIndia, CityLook, ElephantStrainers, VTrail Stabilizer, Convert Indian client product understanding to complete product and train their team to work on final developed solutions From top VPS hosting to Multi-platform hosting such (Apple, Android) to UI to graphic mock-up On-sore visits to client business to understand their business and develop technological solution to speed their workflow Techs: - Full-stack PHP Magento/Joomla/Wordpress Code-Ignitor web development - Angular 1 /jQuery Mobile development, RFP/RFI. E commerce/information hybrid/multi-platform responsive portals - Uml, ERD, GoCart, Ajax, Rest, less/sass, Android/iOS, jQuery Mobile, Cordova Node.js, IONIC Angular		
Mar 2011 to Aug 2013	Winsoft Solution	Janakpuri District Center, New Delhi
Projects: Jaipur Metro, Go2root, GreenInfra Full-stack Web Designer cum Web Developer Techs: PHP & Joomla, Javascript, CSS/HTML, SEO, MYSQL		
Dec 2010 to Mar 2011	Heritage Publishers	Ansari Road, Darya Gj, New Delhi
Projects: HeritagePublications Joomla Ecommerce Website Techs: Full-stack Web Designer cum Graphic Designer (PHP Joomla, MYSQL, Adobe)		
July 2010 to Dec 2010	Skynet Computers	Wazirpur Comp. Mkt., New Delhi
Desktop Hardware/Networking Engineer , Computer & peripherals hardware repairing		
Aug 2009 to June 2010	Airtel Internet Cafe	Liberty, Dev Nagar, New Delhi
Graphic Designer and Desktop Software Engineer (Adobe)		
Oct 2008 to June 2009	Gelato Victorio	G.K.-1 Market, New Delhi
Outlet Assistant Manager (Cold Stone Ice cream Chef)		

Role Enabler:

Good team player and contributor	Creativity, eye for details	Effective listener
Process orientation	Receptive to idea	

Education

2010 to 2015	Indira Gandhi National University	Rajghat, Delhi
Bachelor of Computer Application 63.8% Roll No. 27036373179 December 2015		
2007 to 2008	NIIT, Computer Institute	Outer Circle, CP
C, C++ languages, DBMS, RDBMS and SQL SERVER 2008 Roll No. R070020202440		
2005 to 2007	Marathwada Institute of Technology	Polytechnic, Mundka, Delhi
Pursued one year in Mechanical Eng. Diploma		
2003 to 2005	D.T.E.A. Sn. Sec. School	Mandir Marg
Intermediate with Arts including Business Studies from National Open School		
Matric with Math, Science, English, Social Studies, Hindi		

Professional Certifications and Training Completed:

2024 Assessment for: US Healthcare overview, Hipaa compliance, Electronic Medical Health records, Healthcare Interoperability, US Healthcare providers, Physician payments sunshine act overview 2024

2023 Assessments for: Business Aligned Framework (BAF) Overview 2023, Six Sigma and Lean 2023, LP Requirement Development 2023, LP Matrics 2023, LP_Risk & Opportunity Management 2023

Performance Management **2022**, Telecom Basics 2020, CMMI 2.0 2020, HIPPA Security 2020

Core PMI 2017, Agile Foundation 2017, ERS-EXA Lead and Technical Manager - PM Track – Pre-assessment 2017, Delivery Management(DQI) and Metrics Portal training(PM/PMO) 2017, Network Management Software Assessment 2017

Behavioral JBC Track 2016, Information Security 2016, Need a Systematic Approach 2016, **Python Basic and Indeterminate 2016**

MCSE and CCNA certification training, Computer hardware, Chip component level and Networking **2011, ASET Roll No. 11739 Diploma in Computer Applications (Web Designing), 2010, MSBIC RDBMS and IT Fundamentals, June 2007, NIIT**

Connect to online portfolio greatwebist.wordpress.com, github.com/ranrolls and [stackoverflow/roybellnet](https://stackoverflow.com/roybellnet) for latest update. It will also help you to track technical journey in computer world so far

Hobbies & Personal Details

Yoga, Swimming, World News, Gaming, Data Science and AI Technology reading and learning, Cycling, Music and Finance Investment	Date of Birth	02nd March 1988
	Father's name	Shri Rajender Kumar Sharma
	Languages	English, Hindi and Punjabi
