## Achievements

Tech Stack: Full Stack Development, Python, Express JS, Electron JS, Cordova, Flutter, Next js, Typescript, Github Co-pilot, Node.js, Azure cosmos, AWS Cloudformation, Multi database: Mongodb, Postgres, Redis and Oracle, Multi Cloud: Redhat Openshift.  
Front-end React JS, Angular 8

Kaiser Permanente - Ideation and Implementation of 24\*7 circular development life cycle b/w PST and IST

EON - Implementation for GEN AI chatbox development python

Cisco - Idea and implementation of two value creation ideas:

- Docker deploment image hardening to strengthen security
- Auto API failure detection and troubleshoot system

Mitel Cloudlink SDK - **2nd prize winner for product track innovation on Mitel 12th Innovation Day event 2022-23, 70+ demos been presented from 6 R&D labs across the globe**

Idea and implementation of two value creation ideas in period of 1 year:

- Parallel execution of application using multiple-threading CPU cores of machine
- Serial execution improvement for reducing initial time consumed to complete startup activities for micro-services

Mitel NextGen - Idea and implementation of two value creation ideas:

- Global translation of chat messages among users from different region
- On need themes based on request from client also including dark theme

Mitel AWW and MiShare hybrid platform client (Video/Audio sharing buffer protocol API)

Idea and implementation of three value creation ideas in 9 months period:

- File management improvement for logs generated while session
- File size improvement for faster application distribution to clients
- Upgradation of node build library webpack for faster and more secure deliveries

2009-2010 Top Ten participant regional certificate for National Geographic Shaping the future innovation show contest IIT Campus, Hauz Khas, New Delhi
